SOCKS CATALOG

There is historical consistency of development in the development of «UZTEX GROUP» company as in Cotton is the national patrimony of the Uzbek people. Textile production has deep historical roots.

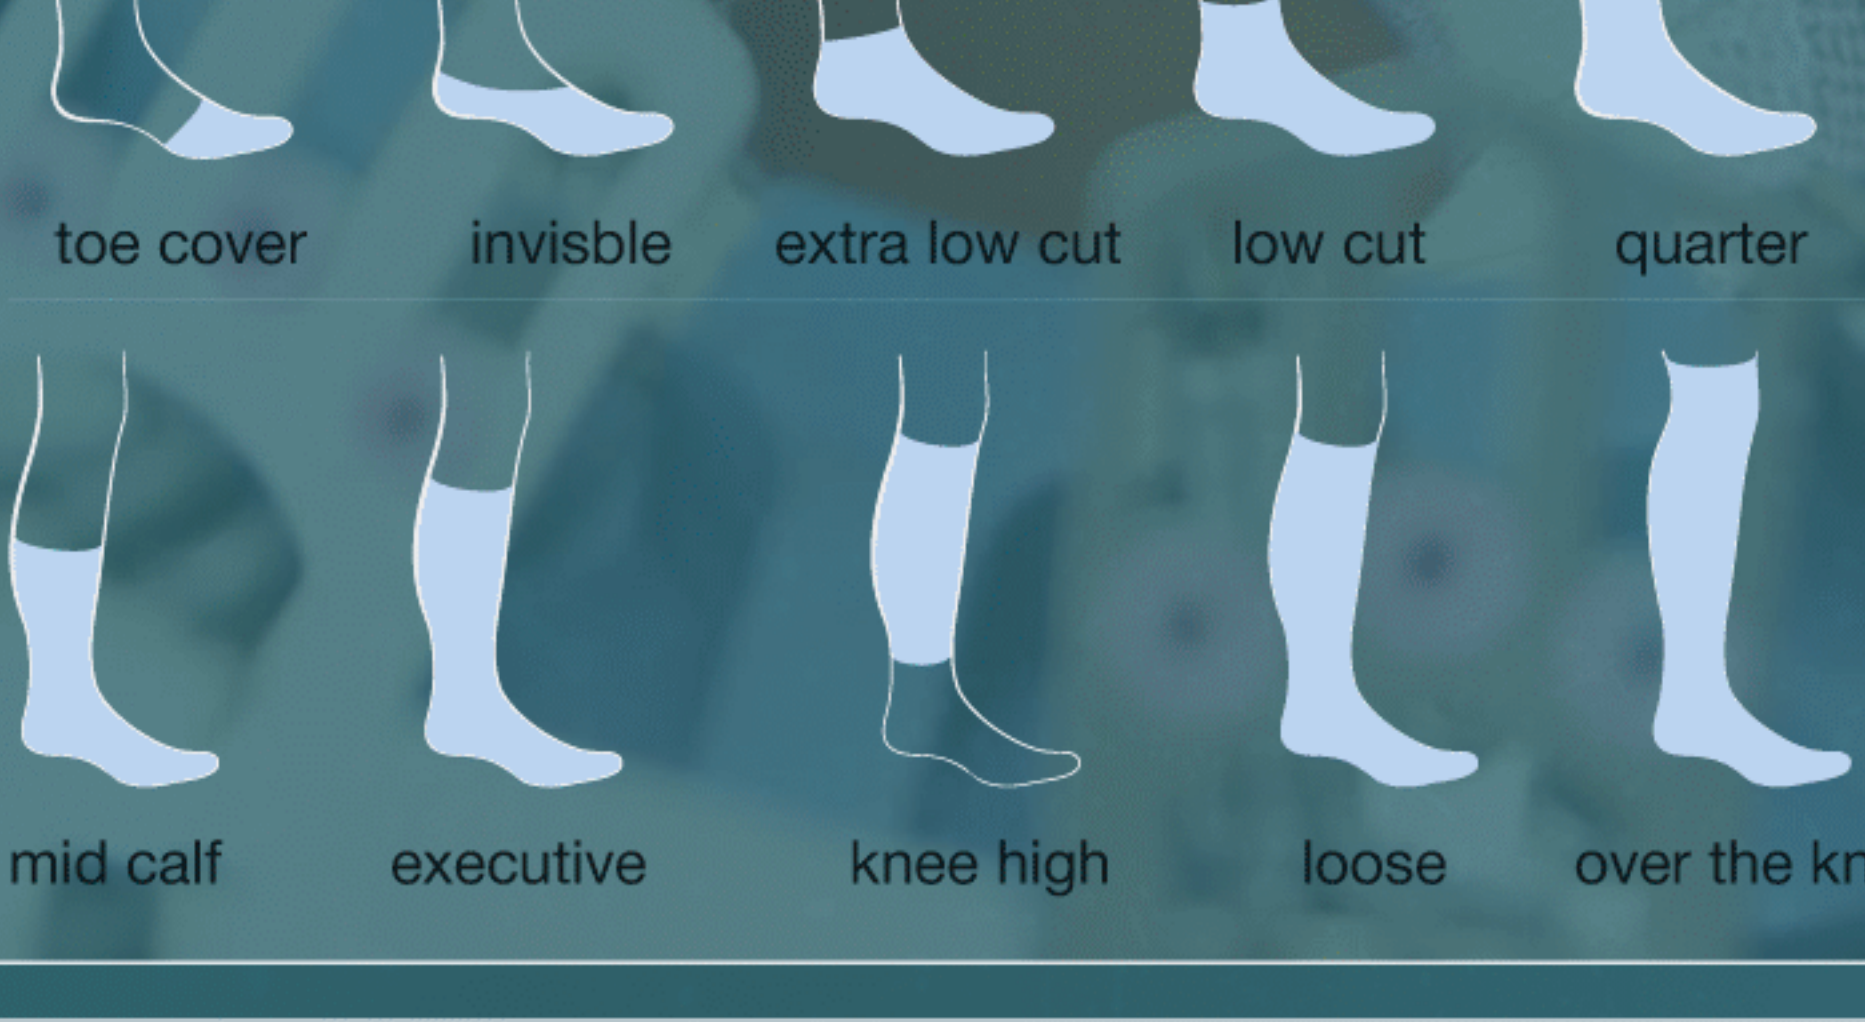

Thanks to the independence of our Republic, the cotton breeding, on application of the latest agrotechnical technologies and on productivity, is one of the most advanced in the world. Uzbekistan is included into the five of the leading global manufacturers of cotton. Five countries of the world: China, USA, India, Pakistan and Uzbekistan - together produce 65% of its total quantity. By careful hands of the industrious people of solar

Uzbekistan and the best minds of geneticists of selection, high-quality breed of the "white gold" were grown up. In cotton-fiber export Uzbekistan takes third place after USA and India. Over 75% of the produced cotton-fiber are shipped for export. The textile industry everything begins with the types of grey yarn and fabric

which our company makes itself at six own textile-mills, and later company itself chooses ways of development, their dying, cutting on ready garments, production of a hosiery. One of the largest projects is hosiery production factory «KATQAL'A-TEKS».

This factory is located in Khorezm region of the Republic of Uzbekistan, Shovot district. At 1 stage, start of the production is planned on the II quarter 2017, at the 2nd stage on the IV quarter 2017.

The number of employees will be more than 700 people: 1 stage – 400 people; the 2nd stage – 300 people. Uniqueness of this textile complex is that in its territory more than 2 000 of units of the capital equipment with automatic closing toe with a flat seam will be launched at once in Uzbekistan. Considering the large scale of the project and multimillion opportunities of production – about 140 million pairs of socks per year, the potential countries of export are - the countries of Europe, the USA, the CIS, East and Western Asia.
